

# Applications

The [Form.com](#) applications allow collecting data on a device that is not connected to the internet.

Our platform user who has an online form can make it available for offline data collection.

The **platform also** allows accessing and submitting forms offline. Read the [Offline Compatible Form Setup](#) help chapter for more details.

Use the [Installation](#) article to download and upgrade your application.

This article leads to all help articles dedicated to the and [Form.com](#) applications.

 <b>iOS</b> <b>Application</b>	 <b>Android</b> <b>Application</b>	 <b>Windows</b> <b>Application</b>

The **User Portal** provides access to Forms or Tasks for Portal or **Mobile App** users by **logging in to the Portal** from a web **browser** or a **mobile application**. Please read the [User Portal](#) article for more details.

There is also a simple and detailed user manual [Form.com Mobile application How-to](#).

## Application Use Case
